BEATTIE ON TRIAL FOR WIFE'S MURDER

(By United Press)

Chesterfield Court House, Va., Aug. 21—Seven temporary jurors to try Henry Clay Beattie, Jr., for the murder of his wife, were secured within three hours after Beattie had been placed on trial today. It is now believed that the entire jury will be secured by the time court adjourns tonight.

Judge Watson asked each talesman if he had formed an opinion in the case and five out of twelve examined said that they believed that Beattie was guilty.

(By United Press.)

Chesterfield, W. Va., Aug. 21—Slightly pale, and puffing nervously at his eternal cigarette, but with no other outward signs of emotion, Henry Clay Beattie, Jr., today faced a trial for the murder of his wife.

Chesterfield C. H. was noisy and gay from the preparations that are being made for the morbid scenes of the trial. The stringy bearded tobacco chewing farmers, came to "Cole" as if it was a county fair.

The accused man, who has spent the past month in jail, was unloaded from an automobile, and under heavy guard was placed in the prisoners' dock. Seventeen year old Beulah Binford, the woman in the case was not in court when the trial started. Another member in the party was Paul Beattie, cousin of the accused, and the star witness for the prosecution.

Late this morning the court refused to grant a stay of proceedings as requested by the defense.

Standing by the side of his grey-haired father, Henry Clay Beattie today, in the circuit court pleaded not guilty to the murder of his young wife. The plea was made after a motion of the defendant's counsel that the case be postponed until next Monday had been overruled, as was a motion to quash the indictment.

Shortly after eleven o'clock the work of selecting a jury was begun. The first juror secured was N. W. Farley, a farmer.

Beattie appeared cool and contained when he entered his plea. More than a thousand people were in the court room to hear the proceedings.

WAS THOUGHT TO BE A JOKE

Brooding over the death of her mother is given as the cause of the suicide Sunday afternoon of Miss Ivy Bailey, aged 17, who resided with Mr. and Mrs. Sheridan Lindsay, who live half way between the Union Mills and the Infirmary.

Evading the vigilance of the members of the family and giving the excuse that she was suffering from severe pains in her head, Miss Bailey left the dinner table Sunday and took a big dose of rough on rats.

Miss Bailey calmly told the family what she had done, but as it was some time before the deadly poison made her sick they treated her remarks as a joke.

About four o'clock yesterday she was seized with severe vomiting. A physician was not called until nine o'clock Monday morning as Miss Bailey remained conscious and insisted that her condition was not serious.

Dr. Test arrived at the Lindsay home at nine o'clock this morning and in less than an hour Miss Bailey was a corpse. He was too late. She died in terrible agony and it required two persons to hold her in bed. She became convulsive early this morning and it was soon see n that she was in the throes of death.

Coroner Robe was later called and after examining members of the family he rendered a verdict of suicide. Mrs. Lindsay, who is an aunt of the dead girl, says that Miss Bailey brooded over the death of her mother three years ago. It is thought that grief seized her Sunday afternoon and caused her to take the poison. She had made numerous threats of self destruction, but they were not taken seriously.

Miss Bailey had she lived until next Monday would have been 18 years old. She had been very moody and despondent, but little attention was paid to this as she was well cured for and her relatives were shocked to learn of her rash deed. Miss Bailey was formerly employed here and has numerous relatives in Portsmouth. She was rather small and slightly built and had a wealth of brown hair.

Ivy Bailey was born in Adams county in 1893 and was the daughter of Otta Bailey and Myrtle Bailey. The girl's mother, Mrs. Myrtle Bailey, died three years ago and the suicide had been despondent since. Two sisters, Edna and Effa, survive.

No funeral arrangements have as yet been made, as they are held pending the arrival of the father from Blue Creek, Adams county.

Elwood Lindsay, who resides in the house where Ivy Bailey took her life, stated to The Times that the girl left no letters or notes telling the reason for her rash act.

Men Gave Checks, No Money In Bank

Some of the merchants along Market street Saturday felt for a time that they had fallen into the hands of some "bad check artists" but it proved to be two prominent men of Lucasville and Otway who had given checks on overdrawn accounts. FINE SERMON BY REV. H. L. WEBB

The auditorium of the Grandview Avenue Christian church was filled Sunday morning by friends of Rev. Henry L. Webb, son of D. L. Webb, a former Portsmouth boy, who is now a Christian minister located at Portland, Ind., and who filled the pulpit. Reverend Webb is a large man and has a square set jaw. His sermons bristle with good, aggressive pointers, and he says exactly what he thinks. Those who heard Rev. Webb preach Sunday say that he is one of the best preachers of his denomination in the middle west.

Reverend Anthony pastor of the church, read the lesson, following which the prayer was made and Holy Communion was served. Rev. and Mrs. Anthony sang a beautiful duet, entitled, "There Was One Who Was Willing."

The report of the church treasurer was received, which showed that the affairs of the church were in good shape.

In introducing Rev. Webb, Rev. Anthony stated that it gave him profound pleasure to have Rev. Webb occupy the pulpit, for he was largely instrumental in starting the Grandview Avenue Sunday school.

Rev. Henry L. Webb then read the scripture lesson and started his masterly sermon. His style is deliberate and he enunciates each word clearly, finally working up to an intense climax.

"The more we study God's word, we see the Creator," said Rev. Webb. "It fits in perfectly with the nature of man. The Lord's Supper means a source of great blessing to us. It gives us time and opportunity for self-examination. We are so busy with the cares of life that we seldom have time to sit down and meditate.

"The great founders of religion spent time in meditation. We would be better and stronger in the Christian life if we spent more time in meditation. When we partake of these emblems we should think only of Jesus Christ. We should go back over our lives seven days. There should be nothing in the service that takes us off of personal examination.

"We are a part of a great body. We are few here. Do you realize that it's the custom all over the world to meet at this hour to worship Him? The thousands of people everywhere are gathering to break bread, and we are one body.

The Apostle Paul may have been able to dream dreams, but when he wanted to make you dream them he was tied up by language. When the inspired writers pictured Hell and Heaven, they were limited by language. God, himself, with all His power, is handicapped by language.

"The first lesson I wish to impress upon you is the lesson of sympathy. All members of the body sympathize when one member is hurt. We should bring that sympathy into the church of Jesus Christ. One of the greatest needs in the church today is sympathy. In a great many churches members are not interested in each other.

A man wants sympathy, love and appreciation. He joins our secret orders. This is because in the church of Jesus Christ we lack this sympathy. Some one has said, "Laugh and the world laughs with you; weep, and you weep alone!" That is true. Because of that fact today there is a hungering and thirsting in the church which is not satisfied.

"The lesson I want to bring before you is sympathy. In the past we have been dealing too much in theology. What we need is more Christianity and less theology. In the past, if a man said he was a Christian, they asked what creed he had. The world asks today, what are you doing?

"We should have practical Christianity. We go to the house of God for comfort, sympathy and love.

"The next lesson I would plant upon your minds is that of interdependance. The members of the body are dependent on each other. There is in society an inter-dependence. There's no such thing as independence. Each depends on his neighbor.

We have a great many problems today. I want to say, if your problems are ever solved it will be by the church of Jesus Christ. The only way you or I can be consistent is by following the teachings of Jesus. The way Jesus taught in life was by laying down fundamental principles. When Moses came he had rules. Jesus Christ erased them and gave us fundamental principles.

"Do unto others as you would have them do unto you. It will solve all problems. I want to say when I deal with your wife and daughter as I would have you deal with mine, the social question will be settled. When I make my community better, I am making it possible for myself to be better. When we go out and try to save others, we save ourselves.

"The last lesson I shall bring is that of co-operation. We sometimes look on the works of man and think what a wonderful creature man is. Do you ever realize what it takes for a man to achieve such things? What a wonderful thing it is that made man. A man could do very little in any line just by himself. There must be co-operation in the church of Jesus Christ. You people must learn to pull together as one man.

"When the call comes for volunteers, we must all be ready for service. These three lessons of sympathy, interdependence and co-operation are the essentials. Are you retarding or aiding God's work? The members of these churches in town are either aiding or retarding th progress of the Gospel. Every time you bring an imperfect act into your life, some man out in the your action. Let us honor Jesus Christ in our lives."

He called on his wife at her home on North Findlay street and was cordially welcomed despite the unpleasant memories of the past and the trials and hardships of the woman to bring up her children. The two practically effected a reconciliation and it should not be surprising were Bocock to remain here permanently. He went to Cattlettsburg, Ky., on business Monday and is expected back Tuesday. Harold Robertson Preaches Sermon

Harold Robertson, son of Rev. Dr. Charles S. Robertson, occupied the pulpit of the Free Baptist church Sunday night. Mr. Robertson is fitting himself for the ministry and will leave in a short time to take up collegiate work. He will enter the ministry of the Presbyterian church.

The sermon was on the subject of "World's Peace." Mr. Robertson declared that there could never be world peace unless there was internal peace in each nation. "The question therefore narrows down to the individual," said the speaker. Mr. Robertson thinks that world peace will never be attained until the majority of men live up to the teachings of Christ.

Under Strain, Mind Of Gun User Gives Way

Thomas Patton, who shot and almost killed his neighbor John Wiehle at Chaffin's Mills recently, is now a raving maniac at the city prison.

Patton began showing signs of dementia Saturday morning. Someone had reported to him that his victim had taken a sudden turn for the worse and it began preying on his mind. Within a short time he had been transformed into a wild man; throwing himself against the bars of the cells at frequent intervals and shouting at the top of his voice. His outbursts continued incessantly all day Sunday and throughout the night and Monday morning found no change in his demeanor. Attorney Theo. K. Funk has been engaged to defend Patton, who was held to the grand jury on a charge of shooting with intent to kill.

Mrs. Lizzie Collins was badly beaten up by her husband, Charles Collins, a young shoeworker, at the home of the latter's mother on Madison street, Sunday morning.

The couple is separated, but a written agreement existed between them whereby the mother was to enjoy the company of their baby for a half day each week.

When she called for the child Sunday morning, Collins immediately attacked her. She was severely bruised about the side, claiming he kicked her after knocking her down. She repaired to the home of friends on Scioto street and called the police. Collins was ordered to appear in court Tuesday.

PORTSMOUTH PEOPLE WERE ON BOARD A SHIP AFIRE AT SEA

H. F. Fairtrace, of the Excelsior, who, with Mrs. Fairtrace, is on a tour of Eastern cities, were passengers on the Maine Steamship Co.'s steamer Massachusetts from Boston to New York on which the fire and panic occurred Friday night. When the Massachusetts was off Race's Point, near Provincetown at 7:15 o'clock Friday night, smoke was seen coming in clouds from the engine room. Ship's officers notified the passengers that there was a fire in the engine room and had the fire alar sounded. All passengers were ordered to the decks.

Then a second alarm was sounded and the excitement that followed was intense. The ship carried a full list of passengers and the men on board completely lost their heads.

Inside of ten minutes the decks were filled with scrambling, cursing men and screaming and fainting women, while two battleships, the Kansas and Vermont, called by wireless were rushing to the rescue. The scene on board was indescribable, men fought for life preservers, and in some instances snatched them from frail women. In their midst a negress, a stewardess on ship seemingly alone in the task of keeping her head, ran about trying to calm the passengers. She was joined by several men and it's a safe bet Fairtrace was one of them, who managed to get partial command of the situation. They commanded the men to take off their life preservers and set an example of calmness to the women. The men finally got control and restrained the cowardly element from their inclination to run rough shod over the women of the ship.

After over an hour's hard fighting the fire was under control and later put out, but the passengers got little sleep that night.

The battleships almost up were turned back and proceeded to Boston. The Massachusetts got under way and reached New York Saturday morning.

Mr. Fairtrace says he has had many and varied experiences but he does not want any more like the last, especially on a pleasure trip. He and Mrs. Fairtrace are now in New York and will not sought for life preservers, and in come home for several days.

Trenton, N. J., Aug. 21—Having proved her husband's infidelity, she insists, by piecing together torn letters from other women, Mrs. Amanda H. Hendrickson, of Allentown, has sued in the Court of Chancery for maintenance. Hires G. Hendrickson is the husband. One co-respondent named by the wife was employed as a bookkeeper by Hendrickson.

The letters found by the wife generally start with "My Darling Boy," and end with "Your Loving Little Girl." Mrs. Hendrickson also charges infidelity with a widow in Allentown. The wife also asserts she made good a defalcation of her husband by using $400 of her savings and borrowing $400 from her mother.

GIRL WISHES TO HEAR OF MOTHER

Do you know the present whereabouts of a woman who once lived in Portsmouth, and whose child, Mary Northrup, then two years old, was committed to the local children's home?

When the child was eleven years old she was taken from the home by a family residing at Roseland, Ross county. That was several years ago, but she has neither seen nor heard of her mother since. The daughter now advancing towards womanhood, has a deep longing to know her mother again, and if you have any information regarding the woman and will communicate it to The Times, it will be pleased to place it in the hands of this forlorn maid, who can not now recall what is her mother's christian name.

Fire of unknown origin came near destroying the fine cottage at No. 1301 Grandview avenue occupied by J. W. Tingler, an N. & W. yard engineer, Sunday night at 11:45.

Tingler had been asleep in the house perhaps two hours when aroused by smoke and noises in the rear. His wife is away on a visit. Hurrying from his room, he found the kitchen had been transformed into a seething furnace. By this time his next door neighbor, Andrew Crull, had also been attracted by the sight of flames and smoke and had hurried over to awaken Tingler.

An alarm was sent in. The Hill-Top fire company made a splendid run, and by hard and effective work confined the fire to the kitchen and roof of the remaining part of the cottage, though it was waterlogged throughout.

Nothing was saved in the kitchen, but much of the other furniture and furnishings were removed to places of safety, and it is thought Tingler carried sufficient insurance to cover his loss. The cottage is owned by Owen Cress, now of Denver, Colorado, and the insurance will cover the loss on the property.

Big Crowd In The Capital On Sunday

Exactly 191 Portsmouth people took in the final N. & W. excursion of the season to Columbus, Sunday.

The excursion did not quite come up to expectations from a local standpoint, as fully 300 people were expected to make the trip, but Ironton held up its end well, 131 leaving there on the special. Excellent time was made going and returning.

Twenty-one excursion trains in all were run into Columbus Sunday, and the city was overrun with visitors, chiefly gathered for the opening of the national meeting of the American Federation of Catholic Societies.

The parade of the affiliated societies and delegations from all over the union and insular possessions was a monster affair. Portsmouth was well represented in the parade. Messrs. John F. Flannigan, Ralph Scheffler and Jacob Yinger, the local delegates, have remained for the entire week.

CAN'T BEAT THIS BOX

Cliff Saunders, of the local C. & O. freight office, has invented a neat-looking contribution box. It is made of an ordinary cigar box with a cork directly underneath the slot and so arranged and operated that once a coin is dropped in it cannot be taken out again without taking the entire box apart.

Wilson Is On Stand

(By Associated Press.)

Washington, Aug. 21—Secretary Wilson in his testimony before the House investigating committee today, stated that the powers of Dr. Harvey W. Wiley had not been curbed in the least. His testimony tended to uphold his contention in the wrangle in which he and Dr. Wiley became embroiled.

Wilson said he signed the paper granting authority for the appointment of Dr. H. H. Reisby for which Dr. Wiley was condemned by Attorney General Wickersham but he declared he knew of no agreement by which Reisby was to work only a certain number of days. The board of food and drug inspection, which Wiley hinted was packed against him, by the selection of Solicitor McCabe and Assistant Chemist Dunlap, Wilson asserted was created because it was physically impossible for the secretary to personally conduct all hearings as specified by the pure food law.

NEW STATES BILL SIGNED BY TAFT

(By United Press.)

Washington, Aug. 21—President Taft this afternoon at 3:08 signed the bill admitting Arizona and New Mexico to statehood. Only the refusal of the people of these two territories to comply with conditions imposed by congress, can now prevent their entering into the union, in about three months. The people of New Mexico must vote on the proposal of making their constitution more easily amended, while the Arizona voters must eliminate the recall of judges provision from their constitution. After the selection of state officers and representatives in congress the states will then be admitted.

Conservation of Timber Upsets Cheap Lumber Talk

because if one will just stop a moment to compare the rapid increase each year of our population and its added demands for new homes, with the comparatively limited supply of standing virgin timber, it will be easy to see why cheaper lumber is impossible. It's a fact, though, that the lumber we handle these days compared with the mill-work that was sold 15 to 20 years ago is a much greater bargain for home builders. This improvement in quality is obtainable at no increase in cost, aside from the natural advance in standing timber, because of the great improvement in labor saving saw mill machinery over that used years ago. Let us explain this more fully by showing you the kind of stock we have.

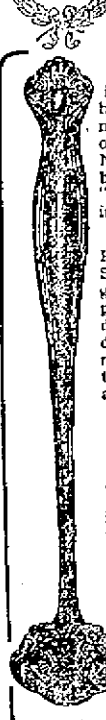
Napoleon's Silverware



Or what is left of it, is probably exhibited in some national art gallery or museum, but the Napoleonic style, better known as "Empire" is still used in silversmithing.

The "Empire" Pattern in Towle Sterling Silver is in great favor with the public and much in demand for weddings, birthdays, anniversaries, graduations, holidays, and all gift occasions.

The Empire

is, to our mind, a very excellent selection for almost any purpose. It blends nicely with modern decorations. It has ample strength yet is moderate in cost and especially priceworthy. The ornamentation is delicate and the outlines unusually graceful. The finish is a soft French Gray.

Borrowing to Build

Building and Loan Associations offer the safest form of mortgage that can be obtained by the borrower, who is a genuine home owner. Different associations have different plans on which money is advanced but they all conform to a general scheme.

The Portsmouth Savings & Loan Company, in the Opera House Building, have a splendid plan for borrowers, a plan whereby they reduce the principal each six months for the borrower and the payments may be made monthly if so desired. This plan is worth investigating.

SHORT SILK COAT AND LONG EVENING WRAP.

A BACK view of the short coat is illustrated below. The little coates, as these garments are called, has become very fashionable this summer, and it must be acknowledged is an article of great convenience in a woman's wardrobe. They supply the demand for a lightweight garment for the many cool days that come during the summer season and are economical in that they can be worn over any number of garments.

IN the sixties, say little silk coats called "spencers" were worn in the afternoon over pretty frocks of light material, and the new short silk jacket that has cropped up in Paris is much like the old-time spencer coat.

The dainty jacket pictured is made of Nattier blue taffeta, bound with black velvet. Buttonhole[illegible] eyelets are worked in the coat above the slashes and folds of the silk are laced through.

THOUGH capes and huge collars make the shoulder portion of the fashionable evening cloak rather voluminous, the lower portion is cut on narrow, straight lines. The wrap pictured is of black chiffon embroidered with jet beads in a grape leaf pattern and mounted over green satin. Item and facings on the deep cape are of black satin with a trimming of silver braid beaded in white and jet.

A light chiffon coat of this kind is indispensable in the summertime. There are numerous occasions upon which it can be worn, at the seashore on a cool evening, on the veranda of a mountain hotel or at the theatre when my lady runs into town for a little jaunt.

WOMEN CAUGHT IN POLICE DRAGNET

Anne Jackson and Katie Martin have proven repeaters for Sunday found both back in prison.

The Jackson woman, who has quite a police record here and in Huntington, had made a show of herself in the vicinity of the George home on lower Sinton street. Saturday evening. She pleaded hard to be released, offering to leave town at once, but Chief McCarty will recommend that she be sent to the workhouse. The woman had been arrested only a few nights ago for frequenting a disorderly house.

The Martin woman is the same who was arrested a little over a week ago for the alleged keeping of a disorderly house. She was dismissed at the time for lack of evidence. Police got the necessary evidence, however, late Saturday night when they found her and Oscar Cartwright occupying a room at her home near Eleventh and Gay streets. Both were locked up. Cartwright is a married man.

Other arrests made Saturday night included John Belvinere, found asleep on the depot platform; William Porter, for assaulting his wife in their tent at the foot of O'Brien street, and which fight was a sequel to her act of destroying fifty cans of fruit; Charles Fields, a Brewery Hollow resident, who alighted from a midnight train too drunk to navigate, and D. P. Differbaugh, Tom Martin and Jim Green, all stogiemakers of Wheeling, W. Va., who were fighting among themselves in the washroom and in the corridors at the Riggs House, Sunday evening. All of the cases were set for hearing Tuesday, Mayor Searey having been called out of the city on business.

To Make Home With Brother

Mrs. Zelda J. Haskins, widow of the unfortunate John Haskins, who suicided last week while confined in jail, awaiting commitment to an insane asylum, will take her two little daughters and go to Bonser's Run, near Sciotoville, where she will make her home with her brother, Charles Rice, a farmer.

She said the published accounts of the actions of her husband immediately preceding his detention on an insanity charge are substantially correct, except that he did not make any demonstration with nor handle a revolver at the time the authorities came after him.

Hard Luck For Kids

The crying of a small boy Sunday night in the rear of the Myers residence, 1306 High street, attracted the attention of Mr. Myers, who going to the spot found that children had been stealing grapes from his arbor and that while doing so, John Elbert had run a nail into his foot. Mr. Myers had known for some time that his fruit was being taken, but had been unable to catch the culprits. After giving the children a severe lecture Myers told them to go home. The Elbert boy required the services of a physician.

Fight Over Woman; Cripple Is Used Up

Joe Byers, a young cripple of East Front street, was severely used up in a fight with Mrs. Belle Traylor across the river Sunday.

Byers had followed the woman to the other side, and it is said objected to her joining a drink bout. A number of other clashes between men and women, all grazed by drink, marked the day's festivities in the willows, and the firing of some pistol shots added to the terror the disgraceful scenes caused to the citizens of South Portsmouth.

HUNTINGTON TO GET A PAVING BRICK PLANT

Huntington, Aug. 21. The Huntington Clay Product Company has just closed contracts for a complete and modern fire proof paving block plant, equipped with the latest and most improved machinery. The most modern kilns known as the Youngren continuous gas fired kiln will be installed.

This plant is the latest industry to come to Huntington and is being erected on the Bolderby farm at Sixteenth street and Sixteenth avenue. The organizer, T. L. Milliard, stated last night that when in operation to the limit of its capacity the concern would be able to turn out 100,000 brick per day and that even that capacity could be doubled with little expense and on short notice.

The plant when ready for operation will cost $75,000. The temporary headquarters of the company which involves, Huntington Pittsburg, Dayton and Columbus capital, are in the offices of T. L. Milliard, room 419 Prichard building.

Falls From Top Of Ferris Wheel

Maysville, Ky., Aug. 21. When a colt in the seat of a Ferris wheel broke, in which she was riding at the Ewing fair, Miss Mary Dowell Ray, of Chicago, fell to the ground, forty feet below, and received injuries that probably will prove fatal. Miss Ray fell on her back and shoulders, and one collar bone was fractured, and also she received internal injuries.

Two young ladies who were in the same seat with Miss Ray clung to the steel rod supporting the seat and were rescued without being hurt, but Misses Lucy Stout and Estell Harris, who occupied the seat just below the other young ladies, jumped from their seats to the ground when they say saw the accident, and both of them were severely injured.

Miss Ray was taken to the home of Mr. L. Y. Ray in Ewing, where she was visiting, and the attending physicians said that her injuries probably would be fatal.

Auto Hurls Stone; Miss Noel Is Hit

While sitting on the front porch of her home on John street waiting for an automobile to drive up to take her a ride, Miss Blanch Noel was injured in a very singular manner, Sunday afternoon.

As James Selby swung his machine into the curbing in front of Miss Noel's home the front tire ran over a good sized rock and flung it with considerable force in Miss Neol's direction. Before she could dodge it, the rock hit her squarely over the right eye and inflicted a painful wound. A physician was called and it required three stitches to close it. Miss Noel is a well known school teacher. Her sister, Mrs. Roy Wyroff, who was sitting alongside of her, narrowly escaped being hit by the missile.

After the ministers had talked for some time the meeting was turned over to the people, many of whom made addresses, and short talks.

The Jackson Herald says: "The board of directors of the Jackson Business Men's Association paid a visit to the Irving Drew branch shoe factory Friday morning and found Manager Moran and his force as busy as the proverbial bee. The factory now employs 45 people and turns out 400 pairs of findings daily. The work done in all departments is first class and what is more to the point, a high grade of findings is being made. Our girls are making fine progress in the work, and it is hoped that ere another year passes, we will have a branch of the factory located here employing several hundred.

Tells How A July 4th Was Spent In Alaska

Seldovia, Alaska, Aug. 6, 1911.

The Times:—July Fourth we spent in the old Russian town of Kodiak. It was a gala day in that isolated Alaskan town, and its inhabitants were proud that they had anchored in their harbor on that day a government ship arrayed in flags. In the morning several of us "hiked" through several inches of moss, carpeted spruce forests and marshes to one of the trout lakes behind the town. A drizzling rain fell during most of the day, but we each returned with some nice specimens of lake and brook trout. The Alaskan trout is quite "gamey," and affords great sport. The trout does not "take the fly" readily at this season of the year, so that we were impelled to the unsportsmanlike use of salmon eggs for bait, which the fish take greedily. In the evening of the Fourth the social event of the town was the annual 4th of July dance in the town dancing hall. The Russian and Indian bells of the town are noted for their dancing, and it certainly was a spectacular affair to witness this characteristically frontier dance. In conversation with some of the inhabitants, I was surprised to learn that most of them have never been outside of their own isolated island town! Their frankness was profound, but intellectually they compared favorably with any we have so far met.

Alaska is a rugged, mountainous country, and you meet here the wildest and most primitive nature, unlike anything in the temperate zone. The predominant tree-growth here is that tangled almost impenetrable alder. Alders cover the lower mountain levels and lowlands, frequently uninterruptedly for miles, and advancing through them is very slow and tedious. They do not grow upright as trees do in the temperate zone, but bend low over the ground, partly due to the heavy snow which lies over them through the winter. Another common tree is the spruce, which is usually found in larger or smaller stretches in the most primeval state—dense overhead, and underfoot you must climb over moss-covered and crumbling trees and roots, frequently sinking above your knees through the thick mossy carpet into some water hole or between the roots of trees. You frequently emerge into stretches of thorny salmon berry bushes, which grow to about four to six feet in height, and through which you must carefully make your way. Another plant which does not add much to your comfort is the "devil's club," quite a thorny rod which is frequently met in Alaska. In early June snow still lay heavy in the lowlands, and trees and bushes had just begun to bud, but in two or three days suddenly everything became green—grass and fern became a foot high in a few days, and now it is higher than your head. This was due to the extra amount of light afforded to plant life by the long twilight, for at that time there is no 'night' and to illustrate, you can read a newspaper even at midnight. Song birds became more common than I have ever heard them before, canaries and humming birds are frequently seen, honey and bumble bees buzz past you, and wild flowers of every description grow profusely everywhere—wild rose, daisies, sweet peas, iris and many other familiar and strange varieties. But tramping through the wilds here in Alaska is not as it is in the temperate zone. Here you have no trails to follow, no inhabitants to guide you, no villages nearby—wild, rugged country everywhere. You readily lose your way, 'hiking' is mostly slow and tedious, steep cliffs continually endanger you, and cold mountain streams rage in every gulch, and you must frequently ford them.

I well remember how, some time ago, after having 'hiked' for about five hours through several miles of tangled alders, I lost my footing while trying to cross one of these mountain streams and sank to my neck in that icy water, and I will not forget that five-hour 'hike' homeward; but that is but one of many such experiences that repeatedly befall one here. The Alaskan mosquito is now quite active, and is more harrassing than anything of its kind I have ever met. They do not attack you in numbers of one or a dozen, but often by the thousands, and often "drive you from the woods," so that it is absolutely necessary during this season of the year to wear gloves and a netting mask about your head when tramping through the woods or hunting.

Moose are found along the east coast of Cook's Inlet. They are quite alert, and it is usually rather difficult to find them. Since we are allowed the privileges of hunting as explorers under the Alaskan game laws, and as our fresh meat supply had become exhausted, I prevailed on our captain, while on our way to Seldovia some days ago, to place me ashore in the moose country with supplies sufficient for several days until the ship should return to pick me up, with the hope of getting a moose. In moose country the characteristic sights are the "moose runs," well-beaten moose trails which run in all directions. On the second day I came upon a moose standing at about a hundred yards distant behind some alders. He was facing me and had already seen me. Taking a shot at his head, he fell but rose again. Not wishing to take a chance of losing him, I took another shot, which killed him. When I came up on him he lay there large as a horse. After sectioning him, I 'blazed' a trail to the sea shore, where I was rather glad to see our ship just coming to anchor; for this country, wild as it is with bear tracks everywhere, is certainly not too comfortable to be alone in. In the region where I was hunting there were many grouse and squirrels, but for fear of alarming the larger game, it is not practical to shoot them. Porcupines were also quite plentiful, and you could knock them down with a stick. They average about eight to fifteen pounds in weight, and are relished by some for their meat. The 'whistling pig' is another common animal. It appears to be one of the first creatures to detect your presence as you are tramping along, and emits a loud, shrill whistle, alarming bird and animal life for quite an area about you.

Respectfully,
C. G. Braundin.

Wife Made Complaint

Mrs. Ella Cooper, of Fourteenth street, Sunday complained to Officer John Diffen that her husband Dan Cooper, was making frequent calls at a home a square away. G. D. SELBY AUTO RAN INTO DITCH

The Chillicothe News-Advertiser of Saturday, said:

"George D. Selby and wife and James N. Enson and wife, of Portsmouth, arrived in the city Friday night from Columbus, via automobile, after a rather strenuous trip. When near Kingston the car got out of order, and try as he would, Mr. Selby could not get it to work. About this time Charles F. Smith came along with his car, and he brought the women to Chillicothe, while Mr. Selby telephoned to Louis Beverly to bring him to town.

"After the women left Mr. Selby thought he had the car working and he started off, only to run it into a ditch and wreck it so that assistance was necessary. Mr. Selby had a narrow escape from being hurt, and as it was, he was shaken up considerably, but he managed to be about the Warner House last night."

Girls Are Again In Unsavory Limelight

Flossie Shore and half-sister, Jessie Darragh, the two young girls who a few nights ago told the police a shocking story of having been made unwilling victims of debauchery along the river, again got into the limelight Sunday evening.

Word had reached Probate Judge T. C. Beatty that the two girls had been out buggy riding late Saturday night with young men, and without the knowledge of their parents. The girls were brought to headquarters, but permitted to return home with orders to appear before the judge for hearing Tuesday.

Japanese Morning Glories

Dr. Archer Moore is justly proud of his display of morning glories. The bloom is much larger than that of the common morning glory, and is from light blue in color, shading off to lavender in the center. Mr. Moore obtained the seeds from friends in New Mexico and planted them last spring. The front and veranda of the pleasant Moore home is now fairly covered with the fair Nippon bloomers.

LET THE RED SIGNS SHOW YOU THE WAY

BRUTAL ASSAULT MADE ON DR. S. B. M'KERRIHAN

Health Officer Dr. S. B. McKerrihan is laid up at his home, corner Fifth and Gay streets, as the result of an assault committed upon him by Tilden Hubbard, a laborer, of No. 303 Eleventh street, Sunday morning.

The assault occurred in front of Hubbard's home, and after the health officer had accused him of violating the quarantine laws. Just as the doctor was leaving the man's home, Hubbard, who was barefoot, slipped up behind him with a shot gun, and using the stock of it struck him a violent blow on the back, almost knocking him senseless. Dr. McKerrihan retaliated by hearing a brick bat at his assailant, but he had taken to his heels and it went wide of its mark. Soon after Dr. McKerrihan began vomiting blood and experiencing such severe pains that he was forced to hasten home and take to his bed, where for the remainder of the day he was in the care of two physicians.

Soon after the assault Hubbard, who is an Adams countian and employed on the new High school job, appeared at police headquarters to give himself up. He told his story to Police Chief W. T. McCarty. Hubbard claimed that the health officer had come into his house and became excited and highly abusive, and when he ordered him out, declared that he would go whenever he pleased. Chief McCarty permitted Hubbard to go, pending the filing of an affidavit. Dr. McKerrihan, learning that Hubbard had been released on his own recognizance, summoned City Solicitor James S. Thomas. After being acquainted with the facts in the case, Mr. Thomas filed an affidavit before Squire Ben Harwood, charging Hubbard with assault with intent to kill.

The warrant was placed in Sheriff Eckhart's hands. He and Mr. Eckhart started out in the latter's automobile on a hunt of Hubbard. They found he had gotten a coat at his home and disappeared. They next visited a number of places where it was thought Hubbard was likely to be found, but it was not until late Sunday evening that the fellow was captured in the vicinity of his home. He was locked up.

It appears that Dr. McKerrihan, in calling at the Hubbard home, attended three of the children who were ill with diphtheria. He had previously been attending Mrs. Hubbard for nervous trouble. When the first developed symptoms of diphtheria, Dr. McKerrihan informed Hubbard he would either have to remain within his home or find accommodations elsewhere, as the house would have to be quarantined. He advised him to board with friends. Hubbard readily agreed to this.

On Sunday morning, while making his rounds, Dr. McKerrihan met Hubbard standing in the front door of his home. He quickly told him he was violating the quarantine laws, for to all appearances he had spent the night at home. Hubbard retorted that it was his own home and he would stay there as long as he pleased. Dr. McKerrihan said that was a matter to be determined. He entered the home and proceeded to examine the patients. He found a child showing symptoms of diphtheria. Hubbard asked him if he intended administering antitoxin in that child's case also. When assured that such was his plan, Hubbard flew into a rage, and is said to have threatened to kill the doctor if he attempted to carry out his plan.

Dr. McKerrihan then told him that he (Hubbard) already owed the city $21 for antitoxin, and this angered him all the more. He accused the doctor of stealing the antitoxin from the city. Dr. McKerrihan accused him of being an ingrate after the faithful efforts he had shown in attending his children when they were at the point of death, also referring to the services of Dr. Oscar Micklethwaite, who had offered his services gratuitously, when one evening Dr. McKerrihan felt indisposed and tired upon his return from the races.

Hubbard was not to be reasoned with and continued his threats. He said he would kill any and all persons who brought antitoxin into his house again. Just before leaving the house Dr. McKerrihan called Hubbard's attention to his pet dog running in and out of the house. The dog, he said, was sure to spread the disease and would have to be either penned up or be killed. The doctor started for the sidewalk, when a little girl shouted warning to him. Before he could turn around he had been struck a violent blow on the back. He turned in time to see Hubbard carrying a shot-gun, rushing back into the house. After he had recovered from the first effects of the assault the doctor went to a drug store after the anti-toxin and returned with it to the Hubbard home, and with the aid of Dr. Micklethwaite, it was administered. Meanwhile Hubbard had gone to police headquarters to give himself up.

Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. STAR FURNACE TO BE REBUILT

Jackson, O., Aug. 21.—It is gratifying to the people of Jackson and vicinity to know that the Star Furnace Company has decided to erect a brand new plant and that when completed its daily output will at least double the output of recent years. Work on the new plant has already begun, and it is the intention to have it completed and in running order by some time next spring.

The plant went out of commission a few months ago, and rather than make any temporary repairs it was decided to erect a new plant, for it was evident that the old one had seen its best days and that ultimately a new plant would have to be built.

ROBERTS IS FREED

Robert Roberts, a young man for whom the police have been searching for several days, was located on East Front street Monday morning. Roberts was arrested on a charge of having attempted libertines with one, Lydia Bailey. He was dismissed by Chief McCarty as the Bailey woman herself is a fugitive from justice, having skipped to Kentucky Sunday, to avoid answering to Probate Judge T. C. Beatty for taking young girls out buggy riding at late hours of night.

GOOD CROWD AT LEAGUE MEET

The Personal Workers' League meeting at Trinity church Sunday was marked by the largest attendance of any similar gathering since the Billy Sunday revival.

The church was well filled and enthusiasm was great. The meeting began with an open session, during which nearly everybody present responded to calls for remarks. The principal address was delivered by Rev. J. W. Atkinson, of Manly church. Plans were perfected for the big rally to be held under the auspices of the Local Option League on September 3, and in which all of the brotherhood classes will participate.

The league will hold another meeting at Trinity church next Sunday, which will be addressed by Rev. Crayton S. Brooks, the new pastor of the First Christian church.

IT IS SERIOUS

Some Portsmouth People Fail to Realize the Seriousness.

The constant aching of a bad back.

The weakness, the tired feeling.

The pains and aches of kidney ills

Are seriously neglected.

Dangerous urinary trouble follow.

A Portsmouth citizen shows you how to avoid them.

Mrs. Lizzie McKinney, 703 Findlay street, Portsmouth, Ohio, says: "I was in terrible condition from kidney complaint, and at one time was confined to my bed for two weeks. When I was able to get up, my back pained me terribly and I also suffered from severe headaches. I was greatly annoyed by irregular passages of the kidney secretions and I thus knew that my kidneys were at fault. The physician I consulted failed to help me in the least, and on my parents' advice I commenced taking Doan's Kidney Pills, procured at Fisher & Streich's drug store. This remedy helped me so greatly that I continued its use, and in a few weeks I had fully recovered. In November, 1904 I told of my experience in a public statement, and now I can say that I have no need of a kidney medicine during the past five years, medicine during the past family have taken Doan's Kidney Pills, and in every instance benefit has been received."

Portsmouth Troupe Has Been Stranded

The Mingo County Republican, in its issue of Saturday, printed the following story of local interest:

"A man giving his name as Dunbar, who posed as an experienced theatre manager from Virginia, left town suddenly Monday night. Dunbar had secured a vaudeville troup from Portsmouth and the theatre was to have opened Friday night. Quite a number paid admission, but for some reason no performance was given. It is said that some of the troup were left in embarrassing circumstances by the disappearance of Dunbar and they remained here, giving shows on subsequent nights to earn money enough to make a new start."

S.S.S. DRIVES OUT MALARIAL POISONING

Malaria is a disease which gradually destroys the strong, nourishing elements of the blood. When the malarial poison begins to absorb the rich, red corpuscles of the circulation, we see pale, sallow complexions and a general impairment of health. As the blood becomes weaker the appetite fails, digestion is disturbed, chills and slight fever are frequent, and in aggravated cases boils and eruptions break out on the flesh. Malaria is blood poverty, and the only way to cure the trouble is to enrich and purify the circulation. Nothing is equal to S. S. S. as a blood purifier, and it is especially adapted to the cure of malarial troubles because it contains no harmful minerals, and while ridding the system of the malarial germs, S. S. S. builds up the entire constitution by its fine tonic effects. If you are suffering with Malaria begin the use of S. S. S. and rid yourself of this weakening disease. Book on the Blood and any medical advice desired sent free to all who write and request it. S. S. S. is sold at drug stores.

Champs Victorious At Piqua Sunday

Piqua, O., Aug. 21.—The Champs of Portsmouth made it two out of three from Newsham's Braves by taking Sunday's game by the score of 10 to 5, mainly through their ability to solve the slants of Goshorn and Taylor who occupied the mound for the locals.

Harter started the game for the Champs, but was being found pretty freely by the locals and was taken out in the fourth inning with the score 5 to 3 in favor of the Champs and Bobby Ahearn was substituted, much to the delight of fifty Dayton fans who were in the stands to see Ahearn work.

After Ahearn took the mound there was precious little doing for the locals, for the Dayton boy used his cross-fire delivery so effectively that such sluggers as Geyer, Riehl and Blue could not fathom him at any stage of the game. The locals did make a couple of runs while Ahearn was on the mound but it was through no fault of his. Harter was not feeling well when he took up the pitching burden, but he had done so well on this trip and Manager Childs was so anxious to get this game that he was satisfied Harter could beat the "Orphans" sickness and all. The Illinois boy would doubtless have gotten by at that but after the Champs had secured a good lead Manager Childs made the switch in the box at Harter's suggestion, who was man enough to admit that he could not put much stuff on the ball.

The Champs, who had been held to a nine runless innings by Goshorn and the Champs wanted revenge. They got it from the jump for after Homer Cain had been retired in the first inning, Emmell Cain, Conwell, Weinberg singled in succession, while Edwards sent out a long sacrifice fly, two runs being scored. From this time on the Champs hit Goshorn hard sending over eight runs before the game was half over. Manager Newsham then called upon Taylor, who, while he was more effective than Goshorn, was found when hits meant runs. The victory of the Champs made their road record stand 7 victories and 9 defeats. Not so bad as it might have been. Before leaving Piqua, Sunday evening, Manager Childs gave out the information that his team was in tip top shape and that he believed the Champs would finish no worse than third. The way they played here it looked as though they would win the pennant. The score:

HOW STAR BATTERS HOLD THEIR OWN

Good batters hold their bats different ways. Larry Lajoie has a grip that is his own. Joe Delahanty grips his bat as a golfer does the club. Larry and Ed Konetchy, both swipers of the ball, hold the bat as did Ted Sparkman and Sam Crawford. Other bats like Larry and Gabby, are not at all other batters who get base hits. Willie Keeler, one of the greatest, he says, choked his bat. He snapped up from the end like Dode Criss and held it short hat.

Bud Has Forecast

With the end of the season less than three weeks away, Springfield looks to have the pennant clinched. It will take an awful reversal of form on the part of the Reapers and a winning spurt on the part of Marion while on the road to enable the Diggers to land first place at the finish, writes "Bud" Gahleman in Lima Times.

The real battle now is between Chillicothe, Portsmouth and Piqua for the third and fourth positions, with the chances about even. The Babes are now in third place, with Piqua and Portsmouth trailing them close. The coming series at Chillicothe between the Babes and the Cubbies will have some bearing on the final result. Both Portsmouth and Chillicothe are home for a stretch of games beginning next week and the chances are even in that respect.

Hamilton is hopelessly lost, and will finish the season in the cellar. The same might be said of Lancaster in seventh position, but the unexpected sometimes happens.

The season has been a fairly successful one, with Springfield, Chillicothe and Portsmouth ahead of the game financially. Piqua has supported Mr. Kiene's team royally since it was transferred from Newark and Lancaster is secure so long as Armour retains the franchise.

Hamilton, Marion and Lima have each lost money this season, but will finish the season. There is some excuse for Hamilton and Lima, as neither town had a team worth enthusing over, but Marion has been in the hunt since the lap of the going, and has one of the best teams, since it has been represented in organized baseball. At present, it is difficult to guess what cities will make up the league next season.

Shaw Is Winner

By driving the ball more accurately than his opponent, Salem Shaw Saturday in the finals at the golf grounds won from Mark W. Selby, 3 up and 2 to play. Shaw's name will now go on the silver loving cup along with Ed Bachler's, Clarence Nodler and Sidney Davidson. The cup goes to the first person who has his name put on it three times during the season.

GREAT TENNIS TOURNEY

Newport, Aug. 21.—The drawings for the thirty-first annual tournament of the United States National Lawn Tennis Association were made this morning. There were 202 entries, a record breaking number for a national tournament. There has been a steady growth in the list during the past few years. There were 105 in 1905, 117 in 1906, 145 in 1907, 159 in 1908, 161 in 1909, 181 in 1910.

The entries for this year include all the leading players of the country, among the number being three former national champions—Henry W. Slocum, Beals C. Wright and William J. Clothier. Others are M. E. McLaughlin, M. W. Long, T. C. Bundy, and G. P. Gardiner, Jr., the California expert; G. D. Little, a former member of the American international team and selected for the team this year; R. P. Schwengers, the Canadian champion; Karl H. Behr, G. F. Touchard, Malcolm G. Chace, F. B. Larned, Theodore R. Pell, C. R. Gardner, N. W. Niles, L. H. Waldner, G. M. Church, Deane Mathey, R. C. Johnson, J. D. E. Jones, J. O. Ames, H. A. Mackinney, E. P. Gross, E. H. Whitney, last year's interscholastic champion; R. C. Seaver, A. S. Dabney, Wallace F. Johnson, L. J. Grant and F. C. Inman.

The drawings are not so evenly balanced between the leading players as might be desired, Touchard, Ames, Little, Schwengers, Behr, Cragin, E. P. RUNS AWAY WITH ONE MAN; MARRIES ANOTHER

Miss Junie Wright, the 16-year-old Rarden girl who stole away from her home at night and eloped with her affinity, "Shorly" Ferguson some two months ago has been heard from. It develops the girl after taking her departure abandoned her first love at Cincinnati when she met another man by the name of Mac-Wells who she married and they are now living happily in the Queen City.

It will be remembered that the irate father of the girl, W. A. Wright instituted a vigorous search for the runaway couple at the time of their disappearance but was unsuccessful in obtaining the slightest clue to their whereabouts.

WILL FIGHT SUIT TO END, SAYS HUSBAND

M. C. Finley, the N. & W. conductor whose wife has filed divorce charges, as told elswhere in the Times, stated to a reporter this afternoon that he intended to fight the divorce suit to the end.

He has employed Attorney Theodore Funk to represent him and says that he will file counter charges against his wife, charging her with living too expensively, going in debt unbeknowing to him, having beer parties while he was away from home, receiving visits from her old sweetheart, etc.

Mr. Finley claims that while he was up on Big Sandy last week his wife packed up a number of household articles and left his home at 436 East Eleventh street.

The couple were married several years ago at Prichard, W. Va., and have been residing in this city for the past four years. They have two small children, for whose custody Mr. Finley says he will fight.

He states that his wife has contracted debts amounting to $80, which he will pay, but from now on he refuses to stand for her debts.

NO WONDER M'DANIEL HAS LOST HIS FAITH

Ray McDaniel says when a well dressed man puts up a plea that he needs money to get his family put out of the city again, he'll pass him by with the words "Pass on, Mr. Johnson."

McDaniel was approached by a well dressed man who claimed that he was from Lucasville, Sunday. The man had a good looking bicycle which he offered to sell to McDaniel for $5.00 for no other reason than that he needed the money to get his family to Cincinnati.

McDaniel helped the man out but early Monday morning Chas. Bender who runs a pressing establishment on Grimes avenue, hearing of McDaniel's purchase learned that it was his wheel that the nice looking man had sold. McDaniel is now out $5 and the wheel.

BIG BUSINESS ON GOOD OLD N. & W.

At present traffic on the Cincinnati division is the heaviest in the history of the N. & W. Eight freights a day besides the regular locals are being run over the line. Two more crews are to be put on the division this week.

Freight traffic has become so heavy on the Cincinnati district that an additional helper engine was put in service between Lawshe and Winchester Sunday to assist the heavy coal trains over the hill.

The regular "helper" is stationed at Rarden and the brisk business just now necessitated more power on the heavy grades.

From 65 to 70 trains are now being handled on the valley and Cincinnati districts daily. The increased business was partly brought about by the present low stage of the Ohio river and the railroads are the only means of getting coal enough to market to supply the demand.

Will Approach Communion.

N. & W. HAS NEW JOHNSON KILLER

Do not be at all surprised if the trainmen of the N. & W. get behind Brakeman Bass, of Crew, W. Va., and back him as the "white man's hope."

Engineer W. L. Bayless stated to a Times representative Monday morning that Bass has just returned from Philadelphia, where he was tried out against three heavyweights, all of whom he put to sleep in less than fifteen minutes of actual fighting time. Engineer Bayless says that the trainmen's protege is six feet, four inches tall and weighs 225 pounds. He is only 23 years of age and as strong as an ox, having hands so large that it was necessary to split the gloves when they were adjusted on his hands in his Philadelphia fights.

Bass, who makes his headquarters at the local Y. M. C. A. whenever in this city, knows but little of the fine points of the game, but he is as game as a pebble and has developed so fast that his admirers believe he has the making of a champion. Mr. Bayless states that it is likely a manager will be secured for him, and if that pans out, many N. & W. trainmen will employ a trainer for him.

N. & W. Engineers J. Q. Payne, Charles Bothwell and W. L. Bayless have returned from Norfolk, Va., where they attended a meeting of the union engineers of the Southwest. The meeting was a sort of social affair, although considerable business was transacted. The engineers discussed features that would tend to elevate their profession and correct some conditions under which they are laboring. The meeting was attended by nearly 1,000 engineers, and the local men who were in attendance report a splendid time.

SHOCKING SCENES WERE ENACTED IN KENTUCKY

Reports of shocking debaucheries among the willows on the Kentucky side opposite here reached the ears of the police Sunday evening.

From what could be learned a number of women, old and young, and all of questionable character, had crossed the river and spent the evening "boozing" with men. Among the number were Mrs. Sarah George, who had just the day before narrowly escaped punishment for alleged conducting a disorderly house on Sinton street, and Mrs. Belle Traylor, another Slabtown character. Some succeeded in escaping the vigilance of the police and managed to get back to this side undisturbed, but the Traylor woman did not reach home until daybreak Monday, just as her husband was starting out for his day's work.

The police learned that one of the merry-makers was Lyda Bailey, a young West Front street girl, who was arrested last week for contributing to the delinquency of Flossie Shope and Jessie Darragh. She was "jagged" Sunday, but sobered up when she learned officers were searching for her, and rushing to the upper ferry landing, induced some unknown to put her across in a skiff.

Celebrates 2nd Time

Merle Hood, a popular employe of the Hibbs Hardware Company, who only a few days ago celebrated his return to work from his vacation by hitting one of his thumbs with a hammer, celebrated again Saturday, when he tangled with a lot of stove pipe tin and cut his hand and also gashed his right leg, neither of which is serious enough to lay him on the shelf. T. K. Kennard, a close friend of Merle, believes he is training for matrimony, which might account for his strenuous doings.

Mrs. Richard Melcher and family, of Wellsburg, W. Va., are in Portsmouth, the guests of relatives and friends. At present they are at the home of Mr. and Mrs. J. E. Melcher, of 320 East Tenth street. Claims He Forced Children To Drink

Falsely charging her with improper relations with other men, extreme cruelty and that he has cruelly struck and beaten the children and forced them to drink whiskey until they became intoxicated are among startling allegations made in a petition for diforve filed in the Scioto county common pleas court Monday by Henrietta Finley against her husband, Millard C. Finley, a well known N. & W. conductor.

Plaintiff alleges that by reason of such conduct on the part of the defendant has caused her to become nervous and her health impaired thereby.

It was claimed that he was about to and will dispose of household goods and deprive the plaintiff of the use thereof unless restrained.

On hearing Judge Beatty issued a temporary restraining order enjoining him from disposing of the goods and also requiring him to advance to her money to maintain herself and children during pendency of suit.

A deal has been closed whereby the partnership existing between Dr. C. Wash. Williams and Dr. E. T. Perry, opticians of Chillicothe street, has been dissolved, Dr. Williams having disposed of his entire interests to his partner, who will continue the business on a larger scale than ever.

Since coming to this city from Pittsburg, Pa., Dr. Perry has been well impressed with Portsmouth and her people, and believes the business will justify him in equipping his place with the best on the market. He has lately increased his stock and has ordered all the latest appliances and expects to begin an active campaign for his share of the optical business.
